

OBJECTIVE

The SMidCap ESG strategy seeks to efficiently capture return opportunities while managing portfolio risk relative to the Russell 2500 Index and SMidCap model portfolio benchmarks.

Benchmark: Russell 2500 Index and SMidCap Model Portfolio

Inception Date: March 1, 2010

PROCESS

The portfolio construction process incorporates company level ESG scores to build a portfolio whose overall ESG score is at least 15% better than that of the Russell 2500 Index.

In addition, the portfolio does not invest in businesses that derive 5% or more of their revenue from the following activities:

- **Manufacturers and owners of military weapons**
- **Manufacturers and owners of alcohol and tobacco products**
- **Manufacturers of gambling devices and/or operators of casinos**
- **Companies with ties to Sudan**

MANAGEMENT GUIDELINES

Holdings: Approximately 100-125 positions

Sector Over/Underweights: Russell 2500 +/- 5.00%¹

Position Weights: 0.25% to Russell 2500 weight +1.50%¹

Cash Position: Typically 0.5% to 1.5%

Average Annual Turnover: Typically 60% to 120%

DUAL BENCHMARK IMPLEMENTATION

This strategy employs a unique dual benchmark approach. The primary benchmark ensures total active risk versus the Russell 2500 which is consistent with our SMidCap strategy portfolio.

The second benchmark limits the tracking error of this strategy versus our SMidCap strategy portfolio. This allows us to maintain very similar characteristics to our SMidCap strategy, while providing the flexibility needed to employ our social screens.

1. At the time of purchase.

2. Fees, including but not limited to the advisory fee, transaction and custody charges, would reduce the return. For example, if an annualized gross return of 10% was achieved over a 5-year period and total fees (management, custody, transactional and all other fees applicable to a portfolio) of 1% per year was charged and deducted annually, then the resulting return would be reduced from 61% to 54%. Pure Gross of Fee Returns do not reflect the deduction of investment management fees or bundled fees for certain accounts where transactions costs cannot be separately identified from other service fees charged by the client's broker/dealer or custodian. Information provided on a pure gross of fee basis has not been independently verified. Net performance reflects the deduction of investment management fees and bundled fees as applicable.
